# XEQUE-MATE

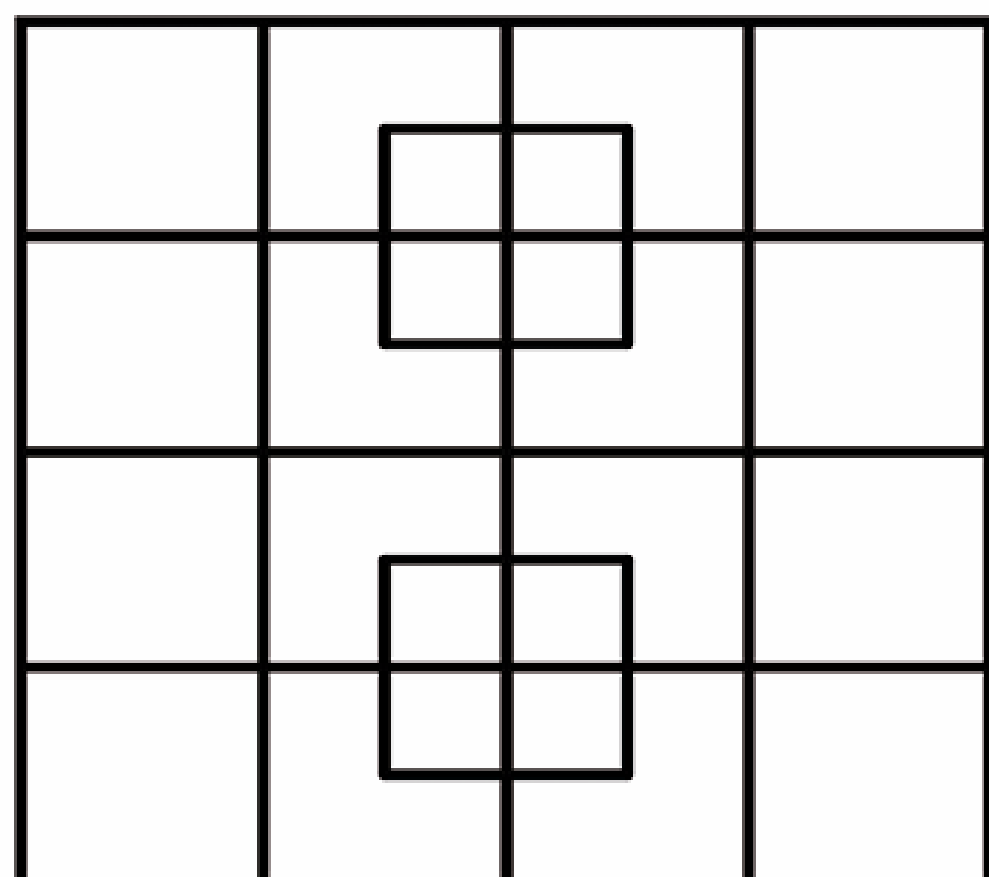

DE MIGUEL OLIVEIRA

 **JULHO 2019**

I make this Poster for my Shortfilm the title is “Xeque-Mate” and in this work i wanted to do a photo using “fish string” to do a ilusionthat the chess pieces were dropping.

Quantos quadrados existem ?

The company ask me to do a brain teasers in Portuguese Following layout company i did this one, where i ask how many squares this image have.

LOADING...

The company ask me to do a Post Promoted for a event called DDC Samsys 2018  
I make a loading bar using the logo company.

The company want a logo for a business podcast with the name "Chá das 5" "5 o'clock tea"  
I use the teacup for my element basic and from there create the rest of the logo.  
I make a space between the image and the frase because in the future if the company wants to use only the element they can without losing the soul of the logo.
